## Payments and gaming in Latin America & The Caribbean

The Gaming industry in Latin America and the Caribbean (LAC) is worth US\$ \$8.4 Billion<sup>1</sup> and it is expected to deliver a compounded annual growth rate of 9% by 2027<sup>2</sup>. This thriving and innovative sector impacts several other industries, and payments is among the industries that are keeping up and supporting this growth the most. But how does this audience use technology to make payments in the gaming world? This is what Visa Consulting & Analytics (VCA) looked into as it analyzed Visa transactions carried out in seventeen countries in the region during all of 2022.
